WISCONSIN
Urological Society

Why Join the WUS?

The mission of the Wisconsin Urological Society (WUS) is to:

- Provide state-of-the-art urologic care to the residents of Wisconsin.
- Assist in the educational efforts of its members.
- Disseminate new data and technologic advances to the practicing urologists of Wisconsin.

Benefits to membership include:

- Excellent scientific programs.
- Reduced meeting registration fees.
- Access to the WUS website.
- Networking opportunities with local experts in the field of urology.

Programs

WUS Resident's Competition

The Wisconsin Urological Society recognizes the need for urology residents to network with, and be mentored by, experienced urologists in the field. To enhance their training, WUS offers a resident program to all urologists currently enrolled in a Wisconsin teaching institution's urology residents program. WUS' resident essay competition takes place during the society's annual meeting. All urology residents in the state of Wisconsin are encouraged to submit abstracts for presentation. Topics may be clinical or basic science and can cover any area in urology. All accepted abstracts are presented to the society and awards are given for first, second and third place.

Meetings

WUS Annual Meeting

The annual meeting is generally held in the spring of each year and rotates between Milwaukee and Madison. Every third year, the meeting moves to an alternate site in another region of the state. The society was created to provide a forum for the exchange of scientific and clinical ideas and data amongst its members, and to provide a mechanism, through the annual meetings, for the discussion and implementation of this data to the clinical practice of urology.

Communications

Post-Convention Newsletter

Following the annual meeting, the WUS publishes its post-convention newsletter, which includes highlights from the meeting, information about the upcoming meeting and a state health policy update. This update keeps urologists up to date with the ever-changing healthcare policies in Wisconsin and describes how legislation will affect their practice. This newsletter also contains a report from the Wisconsin Representative to the North Central Section of the AUA, provides updates on section officers as well as changes in NCS policies/procedures and announces the winners of the annual WUS Resident's Competition.
